

Economics of PSI/ Development of PSI Indicators/Charging Models

PSI Group Meeting- Friday 12th June 2009

**DG Information Society and Media, European
Commission,**

Why is it important ?

What gets measured gets done !!

Challenges

- What constitutes the PSI re-use markets?
- How do we measure PSI re-use?
- How do we measure progress?
- Impact of the different policies ?
- What is the best PSI re-use business model ?
- Identify good practices

Provide policy makers/PSBs with a good overview on the current PSI re-use situation

Context

- No methodology to measure PSI re-use
- Several studies but no common set of validated indicators
 - PIRA
 - MEPSIR
 - OFT
 - CAMBRIDGE Study
 - MICUS
 - GFII
- OECD 2008 WORKSHOP on indicators inconclusive
- No academic research
- Data gathering very complex and cumbersome / Limited PSBs & Industry cooperation

Possible areas of work

- ***Working Groups on:***
 - Identification & development of relevant indicators to measure PSI re-use
 - Economic case for marginal costs
- **Ideas:**
 - Sectorial approach
 - 3/4 MS per Working Group
 - 1 Facilitator/expert per Working Group
 - At least 2 stakeholders rep per Working Group
 - European Commission to provide secretariat
 - Possible funding under CIP Programme
 - Academic involvement ?
